NORTHEAST CHINA PLANS TRAINING OF TECHNICIANS

A large-scale movement to develop technicians is now under way in Northeast China. Aside from the various technical schools already established, such as the Northeast Scientific Institute, Railway Institute, Postal Telegraph Institute, and various provincial or municipal specialized schools of industry, forestry and agriculture, etc., plans are now being made by the various enterprises of Northeast China to organize their own specialized schools and training sections to develop technicians.

Some of the schools and training sections established to date are as follows: (1) an industrial school offering one-year courses in machinery, chemistry and industrial management was formally opened on 12 October 1948 by the Northeast Army Engineer Section; (2) a cadre school with an enrollment of more than 300 students was opened 23 October 1948 by the Ministry of Industry of the Northeast Executive Committee; (3) a technical school offering 6-month courses in weaving, machinery, electricity and chemistry was established during the first part of October 1948 by the Northeast No 3 Weaving Factory; (4) a school for training personnel in the preservation of public order as well as in the detection of gas, spontaneous combustion, etc., was organized early in October 1948 by the Northeast No 1 Coal Mine; (5) training sections have been established by various factories, such as the Tung-chien Paper Manufacturing Factory and the Tsing-tung Company of the Commerce and Industry Ministry of the Northeast Executive Committee, factories operated by the Heilong Province, Tu-liang-sh'ung Factory in Amur Province, and the Engineering Section of the Linetung Province, etc.
